All in one for seamless communication

Dreher

EDI, B2B and EAI systems, designed and managed by the WST Group, guarantee seamless business communication since 2006.

SERVICES • EDI | EAI | E-COMMERCE | SUPPORT | SYSTEM MONITORING
SPECIALTY • B2B | EDI | SYSTEM MONITORING
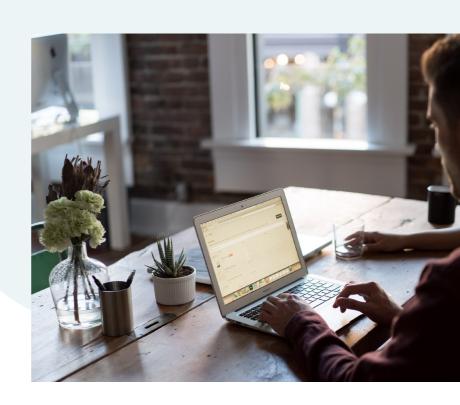

CHECK OUT SIMILAR PROJECTS

Dreher controls more than 30% of the domestic market with producing around 2.5 million hectoliters a year, and distributing Hungarian (Dreher, Arany Ászok, Kőbányai) as well as globally known brands such as Asahi Super Dry, Kozel, Pilsner Urquell, a Peroni, HB and Kingswood cider.

The WST/Bisnet team designed, implemented and manages the company's EDI, B2B, EAI systems. The cooperation started in 2006 and we provide continuous support and develop integration activities: retail chain, LSP (logistic service providers), wholesalers, SFA application, DSD (logistic, transportation), financial partner and EMCS (Excise Movement Control System) integration.

EDI integration connects the company to retailers like AUCHAN, METRO, TESCO, SPAR, Central Drinks, and Waberers. The B2B integration enables seamless communication (orders, master data, reports) with more than 20+ wholesalers. LSP manages order, stock movement, delivery and invoicing with Central, Hansa, Pince, Penta.

The WST group operates two platforms for Dreher: Seeburger Business Integration Server 6 (BIS6) and BNDocExchange and the applications host 40-55K messages/months.
